

1984 rebuilt International Acco 1800, with 1991 250 HP CT6 Turbo Cummins, 13 speed Road ranger, High speed diff, heavy duty driveshaft on 11X 22.5 tubeless tyres. S cam air brakes. Fitted with Hiab111 B-3 DUO with 3 extensions and lifts 3 ton in close and 900kg at 10 meters. Cruises at 110kph. This truck has a replaced rust free cab, although the truck is a 1984 model, the Cummins diesel was a 1991 model and was in a water cart truck at Burleigh Heads and was idle for 5 years before I bought it. It has done very little work in its life. It breaks my heart to sell such a wonderful truck but it must go! New starter, new king pins, reconditioned air compressor, recovered upholstery.

Trees over paved area. If we felled the trunks it would damage the pavers. We drove in on paving and lifted The trunks out under the power lines

Crane can lift 3 ton in close and 900kg out at full 10 meter reach.

Rego to 28/7/2017

Monitor Spider 1890 Lift and purpose built trailer

This cherry picker is fantastic in where it can get too. It has 2 internal extensions and the bucket rotates as well as adjusting up and down. It reaches up 19 meters (60ft) and out 9 meters (depending on the weight in the bucket). It is powered by a Honda motor but also has a 240 Volt motor that overrides the petrol engine when needed to work indoors or where power is available.

Machine drops lower to fit under carports etc. After 28 years of climbing big trees I don't know why I did not get one sooner!

With 2 extensions, this spider goes up 60ft (18m). Bucket rotates which is a very handy feature.

Machine only done 405 Hours.

Regularly serviced by Monitor

Industries... the Australian importers

Books and service Manual supplied.

Vermeer BC 1000XL Wood Chipper.

This is a 2011 model and is registered until November 17. It has only done 550 hours and is in excellent condition. It has an additional diesel pre-filter added to the engine. This is an excellent drum chipper with safety infeed rollers and all safety devices. Comes complete with spare tyre carrier and spare tyre. Has Cummins B3.3 litre Turbo Motor with intercooler.

Chipper has 50 mm towball coupling but ring pull is included see it resting on the drawbar in insert photo.
